

The 57th Annual Association for The Advancement of Automotive Medicine Conference

AAAM holds an annual conference and is renowned as one of the expert forums on traffic injury control. This symposium also includes research from many different automotive-related trauma areas such as epidemiology, biomechanics, treatment and management, transport psychology, accidentology and human factors.

Please Visit the site at <http://www.aaam.org/annual-meeting.html> for more information.

7th International Driving Symposium on Human Factors in Driver Assessment, Training and Vehicle Design.

This symposium is focused on providing an interdisciplinary forum for scientific exchange between users of driving assessment tools, applications and technology. Attendees will include researchers and practitioners working on applications of driving assessment from the perspective of engineering, psychology, medicine, and public health.
